

Best Out of Waste

The best out of waste craft ideas are most suitable to reuse waste materials and decorate your house. Waste products can be of different kinds: Organic waste such as kitchen waste, vegetables, flowers, leaves, fruits. Recyclable waste like paper, glass, metals, plastics, ice cream sticks etc.

Different Types of Houses

Students of grade 2 set off a quest to create an environment that embraced the intellectual bar of excellence by presenting models showing different types of houses like hut, stilt house, brick house, multi-storeys buildings by using ice cream stick.

Students displayed their artistic imagination sharing various needs, importance and the areas of the houses associated with different type. It was a thought-provoking activity to provide informative education and enjoyable learning for students.
